In the Name of God. Amen.

Decree

Change to the Minimum for Extraordinary Acts of Administration

Whereas it is the responsibility of the ordinary to exercise careful vigilance over the administration of all goods which belong to public juridic persons subject to him (c. 1276 §1); whereas the diocesan bishop is competent to determine the limit and manner or acts of ordinary administration for juridic persons subject to him (c. 1281 §2); having determined that the increase in inflation has made it necessary to raise the minimum amount of money which constitutes an act of Extraordinary Administration of Temporal Goods; the Diocesan Finance Council having been heard on September 15, 2022;

I, James Douglas Conley, by the Grace of God and the Apostolic See, Bishop of Lincoln, hereby decree the following:

Article 8.1.6 of the particular law of the Diocese of Lincoln is derogated to read:

- Any facility maintenance, construction project, donation, or other expenditure (excluding ordinary operational expenses) deemed necessary by the pastor or administrator of a parish, after having consulted with the Parish Council and Parish Finance Council; or by the administrator of a diocesan institution, after consultation with the appropriate advisors; which is expected to exceed $25,000.00, or which entails a loan from the Diocese, must submit in writing to the Diocesan Bishop a request for a corporate resolution.

By this decree all other Diocesan forms, handbooks, or similar authoritative documents are hereby amended to reflect this change.

All things to the contrary notwithstanding. Given at the Chancery October 11, 2022
